

# Sprint 2 Plan - TimeLime - Team Citrus - 10/21/18

## Revision 0 -

---

### Goal:

Implement friendship logistics. Allow the search of friends, addition of friends, removal of friends. This implies that a user will be notified when someone requests their friendship and that they can view another user's page. In this sprint we will also be allowing comments on other peoples page

---

### Task listing:

As a user, I want to search all users so I can find people **(16)**

- Create search bar in the navbar **(3)** (*Donovan*)
- Have a page that displays results , i.e. navigating to this page **(3)** (*Donovan*)
- Create all the components to hold individual results **(5)** (*Donovan*)
- Write a function to query FB for users **(5)** (*Donovan*)

As a user, I want to be able to add/remove friendships with other users **(11)**

- Function for add button **(3)** (*Caesar*)
- Function for remove button **(3)** (*Kenji*)
- Structure firebase to handle friendships **(5)** (*Donovan*)

As a user I want a list of all of my friends **(8)**

- Create a modal to display all my friends **(3)** (*Mia*)
- Write a function to get all of my friendships **(5)** (*Mia*)

As a user I want to be able to search my friends list **(8)**

- In the modal create a search bar **(3)** (*Caesar*)
- Write a function to search the friends already in that modal **(5)** (*Donovan*)

As a user I want to be able to view another user's profile page **(8)**

- Have a viewable add button **(1)** (*Kenji*)
- Have a viewable remove button **(1)** (*Kenji*)
- Make user icons links to their user page **(3)** (*Kenji*)
- Create functionality for different users viewing the same page **(3)** (*Kenji*)

As a user I want to be notified when someone requests to be my friend so I can accept their friend request **(12)**

- Add an icon to the navbar for friend requests **(1)** (*Mia*)
- Have accept and decline buttons in the drop down list **(3)** (*Mia*)
- Functionality to show notifications **(8)** (*Mia*)

As a user I want I want to be able to comment on someone else's post so I can let the original poster know my thoughts on the post **(8)** (*)*

- Add button functionality to add comment to a post **(4)** (*Caesar*)

- Create a submit button **(1)** (*Kenji*)
  - Write a function to add comment to post **(3)** (**Caesar**)
- As a user I want to be able to like someone else's post **(3)**
- Add functionality to like button **(3)** (*Caesar*)
- 

## Team roles:

**Caesar:** Team Member, Developer

**Donovan:** Project Owner, Team Member, Developer

**Kenji:** Team Member, Developer

**Mia:** Team Member, Developer,

---

## Initial task assignment:

**Caesar:**

User Story

- Task **(3)**

As a user, I want to be able to post information about myself and post my thoughts so that others will know who I am and what I am thinking

- Retrieve all of the user's texts post from the database to be shown on the profile page

**Donovan:**

As a user, I want to search all users so I can find people **(10)**

- Create search bar in the navbar **(3)** (*Donovan*)
- Have a page that displays results , i.e. navigating to this page **(3)** (*Donovan*)
- Create all the components to hold individual results **(5)** (*Donovan*)
- Write a function to query FB for users **(5)** (*Donovan*)

As a user, I want to be able to add/remove friendships with other users **(11)**

- Structure firebase to handle friendships **(5)** (*Donovan*)

As a user I want to be able to search my friends list **(8)**

- Write a function to search the friends already in that modal **(5)** (*Donovan*)

**Kenji:**

As a user I want I want to be able to comment on someone else's post so I can let the original poster know my thoughts on the post **(8)**

- Create a submit button **(1)**

As a user I want to be able to view another user's profile page **(8)**

- Have a viewable add button **(1)**
- Have a viewable remove button **(1)**
- Make user icons links to their user page **(3)**
- Create functionality for different users viewing the same page **(3)**

As a user, I want to be able to add/remove friendships with other users **(11)**

- Function for remove button **(3)**

**Mia:**

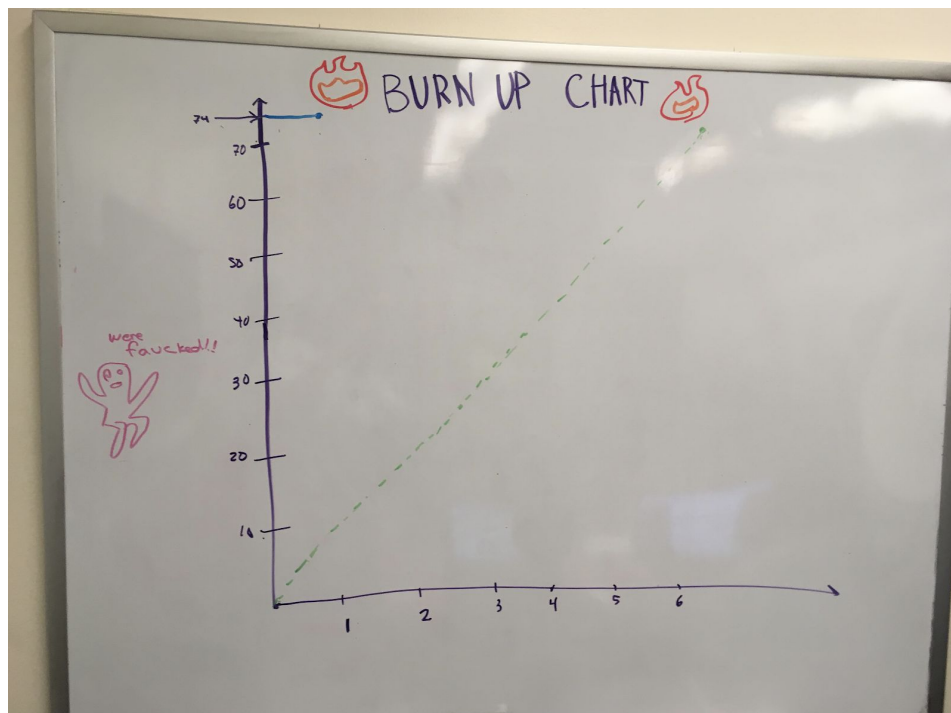

As a user I want to be notified when someone requests to be my friend so I can accept their friend request **(12)**

- Add an icon to the navbar for friend requests **(1)** *(Mia)*
- Have accept and decline buttons in the drop down list **(3)** *(Mia)*
- Functionality to show notifications **(8)** *(Mia)*

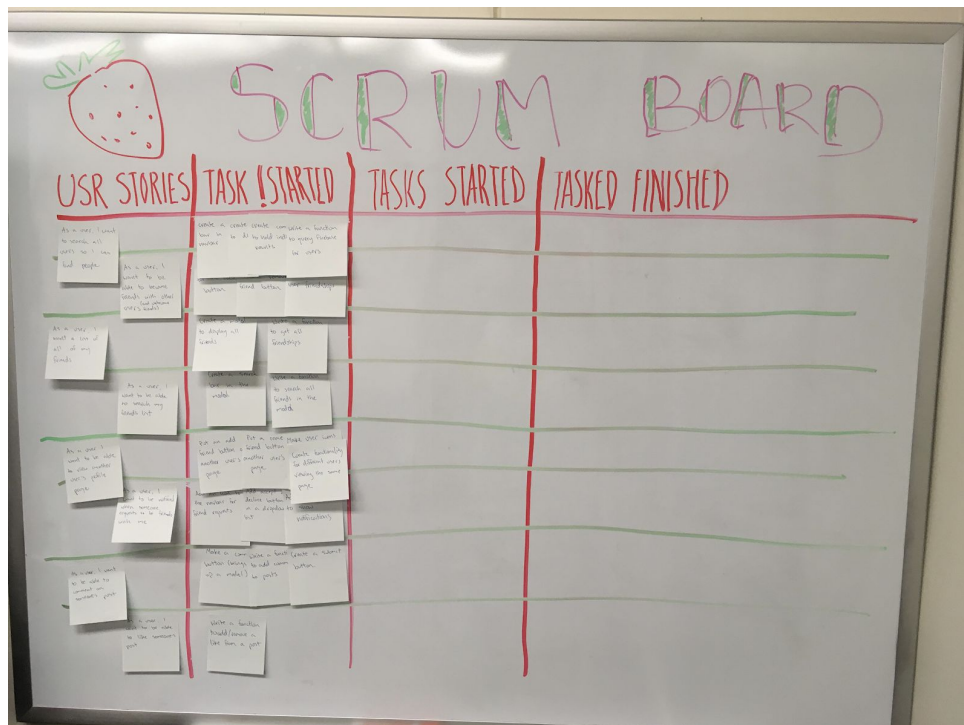

As a user I want a list of all of my friends **(8)**

- Create a modal to display all my friends **(3)** *(Mia)*
- Write a function to get all of my friendships **(5)** *(Mia)*

## Initial burnup chart:

## Initial scrum board:

---

**Scrum times:**

Thursdays: 3:30pm

Sundays: 5:30pm

Tuesdays: 3:30pm
