Sprint 4 Plan - TimeLime - Team Citrus - 11/18/18

Goal:

The goal of this sprint is to increase the robustness of prior implementations while adding smaller features. The most significant addition in this sprint is allowing photo uploads.

Task listing:

General Notifications:

(1) As a user I want an accurate representation of notifications so that way I am not clicking on past notifications. **(15)**

> 👍 Acknowledge every notification when you click on the notification container **(3)** *(Donovan)*
> ❏ Display correct user image and make user's name bold in notifications **(3)** *(Caesar)*
> ❏ Send notifications for likes **(7)** *(Caesar)*
> 👍 Make sure a user can't send himself a notification **(2)** *(Kenji)*

Friend Notifications

(2) As a user I want to be able to accept multiple friend requests without having to reopen the dropdown menu, so that way I quickly add multiple friends **(3)**

> ❏ Adding and rejecting a friend request does not closeout the dropdown **(3)** *(Caesar)*

Messages

(3) As a user, I want my messaging page to be intuitive and clean so that way I can easily navigate it and message my friends **(10)**

> 👍 Have a number representing the number of unread messages **(2)** *(Mia)*
> 👍 Make the message box into a textarea, rather than input **(2)** *(Kenji)*
> 👍 Sort friends by unread messages and indicate that messages are unread **(6)** *(Mia)*

TimeLime

(4) As a user I want my timeline to be ordered properly so that way I can see what my friends most recent ideas are **(10)**

> 👍 Sort TimeLime posts by reverse-chronological order **(2)** *(Kenji)*
> 👍 Change the functions from .get() to .onSnapshot() **(8)** *(Donovan)*

Photo Posts

(5) As a user I want to be able to post photos so that I can have a variety of content **(6)**

👍 Implement functionality to post photos **(6)** *(Mia)*

Posts

(6) As a user, I want my posts to function correctly so that I'm not confused by them **(6)**

👍 Add time posted and deletion time to posts and format it on posts **(4)** *(Kenji)*

❏ Show only one of each post **(2)** *(Caesar)*

Commenting

(7) As a user I want only one comment to post so that way I do not spam my friends **(14)**

👍 Clear the comment text after sending **(1)***(Donovan)*

❏ Have loading indicator while post is loading **(3)***(Donovan)*

👍 Fix post likes **(6)** *(Donovan)*

👍 Post should display the correct number of comments **(4)***(Donovan)*

Friends

(8) As a user, I want my friends and friend requests to function correctly so that I can interact with my friends properly **(6)**

❏ Get friends button on user profile to properly show friends **(3)** *(Caesar)*

👍 Fix friend requests, so that when you request a friend and go to someone else page it doesn't says pending, but instead allows you to request them **(3)** *(Kenji)*

Login button

(9) As a user, I want all other users to have names, so that I know who they are **(5)**

👍 Click the login button with Enter **(2)** *(Kenji)*

❏ Add a modal which prompts a user to fill out their profile on login **(3)** *(Caesar)*

User

(10) As a user, I want to be able to upload photos and edit my information so that I can better express myself **(9)**

🚧 Implementing ability to upload a user profile photo **(6)** *(Mia)*

👍 Change edit profile visuals from button to label **(3)** *(Kenji)*

Aesthetics

(11) As a user, I want the website to look good, so that it is pleasant to look at **(6)**

👍 Update Navbar so it no longer points **(2)** *(Kenji)*

👍 Change home icon to a house **(1)** *(Kenji)*

👍 Have something to stand in when there are no posts **(2)** *(Mia)*

👍 Remove button to post videos **(1)** *(Kenji)*
